EVATON RENEWAL PROJECT

PROJECT DETAILS

Project Name : Evaton Renewal Project, 2016-current (2019)
Client : Tlou Integrated Tech for Gauteng Department of Human Settlements
Project by : Akanya Development Solutions

PROJECT DESCRIPTION

The Urban Renewal Programme (URP) is about the implementation of high-impact, time bound community projects whose sole purpose is cultivating productive sustainable human settlements that contribute to improved local economies, alleviating poverty, and reducing levels of unemployment.

The URP is a targeted intervention which is about integrated redevelopment of targeted urban communities. The Urban Renewal Programme advocated for a change and reorganisation in the spatial arrangement of the country's targeted urban centres.

The first phase of the Evaton project included the planning, prioritisation of capital projects, drafting Bill of Materials (BoMs), sourcing of contractors and supervision of implementation. The prioritised projects included the resealing of roads and building outfall sewers.

PROJECT OUTCOME

At the time of writing, project implementation on roads and sewers were underway.
