

REVIEW AND ASSESSMENT OF THE CAPACITY OF THE
PLANNING UNIT FOR THE ROYAL BAFOKENG
ADMINISTRATION

2016

SNIPPETS FROM THE ASSESSMENT

EVALUATION AND ASSESSMENT OF RBA PLANNING UNIT

September 2016

PROJECT DETAILS

Project Name : Capacity Assessment of Planning Unit for RBA, 2016
 Client : Royal Bafokeng Administration (RBA)
 Project by : Akanya Development Solutions

PROJECT DESCRIPTION

The Royal Bafokeng Nation has undertaken long term development planning to guide their development agenda in the form of an Integrated Master Plan that guides “the provision of developmental interventions including key commercial, housing, healthcare, educational and recreational infrastructure, and outline a developmental plan that will be implemented over a 30-year period.”

In order to ensure the delivery in line with the Master Plan, the RBA requested Akanya to evaluate and assess the capacity and skills of the Planning Division.

The team conducted a detailed analysis of current capacity and strengths by studying documents and work flow processes, supplemented by a range of stakeholder interviews.

Recommendations were made for creating an enabling environment, undertaking targeted organisational restructuring and implementing individual capacity development.

PROJECT OUTCOME

The assessment and its recommendations have been accepted by the RBA.
